

IP65 Waterproof Access Control Card Reader

- Card + Password + QR Code for access control system
- Built-in LED
- Card reading distance up to 6cm
- QR Code reading distance up to 20cm
- Reading speed less than 0.2 seconds

Specifications

Model	TR-H01
RFID Card Type	EM card or Mifare card
Barcode Type	QR, PDF417, one-dimensional code, full symbology
Communication Method	wg/RS232/UART(TTL)/RS485
Decoding Mode	Image decoding
Reading Direction (barcode)	45° inclined plane with the lens as the center point
Scan code features	Automatic induction, buzzer prompt
Working voltage	4V-15V
Working current	standby 100MA, peak value 300MA
Card reading distance	3-6 cm
Reading speed	<200ms
QR Code Reading distance	0-20 cm
Working humidity	10%-90%
Working temperature	-30°C ~ 70°C
Indicator light	Status light green power light
Weight	300g
